

# CALL FOR PAPERS

**ICEGGM 2020**  
**Mar 26-27, 2020**  
**Madrid, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEGGM 2020 : International Conference on Exploration Geophysics and Geophysical Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Exploration Geophysics and Geophysical Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Exploration geophysics	Geophysical borehole logging
Geophysical methods	Mineral exploration
The principles and limitations of geophysical exploration methods	Hydrocarbon exploration
Geophysical data processing	Civil engineering
Elements of seismic surveying	Ground penetrating radar
Seismic reflection surveying	Spectral-analysis-of-surface-waves
Seismic refraction surveying	Full waveform inversion
Gravity surveying	Other techniques
Magnetic surveying	Archaeology
Electromagnetic surveying	Forensics
Electrical surveying	Unexploded ordnance detection
Radiometric surveying
