

CALL FOR PAPERS

ICGOP 2020
Mar 26-27, 2020
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGOP 2020 : International Conference on Geological Oceanography and Palaeoceanography is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geological Oceanography and Palaeoceanography. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geological oceanography

Marine science

Marine geology

Geological oceanography

Geophysical, geochemical,
sedimentological and

paleontological investigations of
the ocean floor and coastal zone

Hydrogeology

Seafloor hydrothermal systems

Beach dynamics and early
diagenesis

Microbiological studies in
sediments

Palaeoclimate studies

Geophysical studies of the seabed

The geology associated with the
ocean

The physical movements of the ocean
water

Waves and currents and tides

Effects of climate change

Marine ecosystems

Chemical oceanography

Chemical composition of the ocean
water
