

# CALL FOR PAPERS

**ICGSIR 2020**  
**Mar 26-27, 2020**  
**Madrid, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGSIR 2020 : International Conference on Ground-Structure Interaction Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ground-Structure Interaction Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ground-structure interaction  
Ground-structure interaction  
modeling and simulation  
Seismic ground-structure  
interaction  
Ground motion characteristics

Homogeneous rock formations  
Compact granular or clayey soil  
Quite compact granular or clayey  
soil  
Alluvial surface layer grounds
