

# CALL FOR PAPERS

**ICHCSS 2020**  
**Mar 26-27, 2020**  
**Madrid, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHCSS 2020 : International Conference on Hierarchical Control Structures and Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Hierarchical Control Structures and Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Hierarchical control systems  
Hierarchical control theory  
Optimization methods  
Hybrid intelligent systems  
Perceptual control theory  
Robotic paradigms  
Motion planning and computer-aided  
production engineering  
Hierarchical control systems  
Applications of hierarchical  
control systems  
Hierarchical control systems,  
current and common problems

Manufacturing, robotics and  
vehicles  
Artificial intelligence  
Planning and scheduling  
Information and production  
scheduling  
Area control  
Computer control system  
Lower level members  
Unit control and supervision  
Electric power distribution control  
and supervision
