

CALL FOR PAPERS

ICLTCEA 2020
Mar 26-27, 2020
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLTCEA 2020 : International Conference on Light Transmitting Concrete for Engineering Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Light Transmitting Concrete for Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Light transmitting concrete
Translucent concrete
Transparent concrete
Ingredients of transparent concrete
Manufacturing process of translucent concrete

Applications of translucent concrete
Advantages and disadvantages of translucent concrete
Material used for translucent concrete
Light transmitting concrete
Optical fibers
