

CALL FOR PAPERS

ICNPPWST 2020
Mar 26-27, 2020
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNPPWST 2020 : International Conference on New Physical Principles Weapon Systems and Technologies is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of New Physical Principles Weapon Systems and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

New physical principles weapons
New types of weapons of mass
destruction and new systems of such
weapons
The impact of new physical
principles weapons on warfare and
battlespace
Non-lethal weapons
Wave weapons
Psychophysical weapons
Genetic weapons

Directed energy weapons:
infrasound, laser, and super-high
frequency weapons
Electromagnetic weapons: lasers and
super-high frequency weapons
Geophysical weapons: climate,
ozone, environmental, and seismic
weapons
Genetic weapons
Non-lethal arms
Radiological weapons
Ethical challenges in use of new
physical principles weapons
