

CALL FOR PAPERS

ICNRE 2020
Mar 26-27, 2020
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNRE 2020 : International Conference on Natural Resources and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Natural Resources and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Natural resource engineering
Natural resources and environmental engineering
Agricultural operations management
Agricultural production engineering
Agricultural science and engineering
Applied biological sciences
Applied biology
Applied chemistry
Beverage science and engineering
Bioinformatics
Biological engineering
Bioscience and engineering
Biotechnology

Chemical and process engineering
Computational and systems biology
Ecological science and engineering
Environmental science and engineering
Food engineering
Food science and engineering
Forestry science and engineering
Land and water resources engineering
Packaging science and technology
Pharmaceutical technology
Post-harvest handling and processing
Wild life and biological sciences
