

CALL FOR PAPERS

ICOS 2020
Mar 26-27, 2020
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOS 2020 : International Conference on Optimization Studies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Optimization Studies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mathematical Modeling
Supply Chain Management
Portfolio Problems
Production Planning and Inventory Control
Human Resource Planning
Project Scheduling and Management
Manufacturing and Service Strategies
Work Design, Measurement, and Improvement

Reliability Engineering
Quality Control: Statistical
Process Control, Measurement System
Analysis, etc.
Logistics, Transportation,
Distribution, and Materials
Handling
Emergency Relief/Humanitarian
Logistics
Operations and Information
Management
Heuristic and Metaheuristic
Algorithms
Neural Networks Application
