

CALL FOR PAPERS

ICPTM 2020
Mar 26-27, 2020
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPTM 2020 : International Conference on 3D Printing Technologies and Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of 3D Printing Technologies and Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advances in 3D printing and additive manufacturing technology
Additive manufacturing and 3D printing design considerations
3D printing materials
Metal 3D printing
Benefits of 3D printing and technology
3D printing technology impact on manufacturing industry
3D printing future technology

3D image processing and visualization
Polymers in 3D printing
Nano 3D printing
3D printing industries
Challenges in 3D printing
3D printing of supply chain management
