

CALL FOR PAPERS

ICSE 2020
Mar 26-27, 2020
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSE 2020 : International Conference on Stretchable Electronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Stretchable Electronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Stretchable electronics
Flexible and stretchable
electronics for biomedical
applications
Multifunctional smart sensors
Battery free electronic devices
Wireless electronic devices

Power supply in stretchable
electronics
Generation in stretchable
electronics
Storage in stretchable electronics
Scalable high throughput and facile
fabrication procedures for the
realization of scientific
technological growth and
development
Robust and reliable novel
geometrical designs for high
performance stretchable electronic
devices
