

# CALL FOR PAPERS

**ICSLDP 2020**  
**Mar 26-27, 2020**  
**Madrid, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSLDP 2020 : International Conference on Security for Linked Data and Publication is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Security for Linked Data and Publication. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Deploying linked data  
Linked data query builders  
Practical semantic web via linked data  
Evolving the web into a global data space via linked data  
Quantifying the connectivity of a semantic Linked data  
Query languages for linked data  
Access control and security for linked data  
Semantics for linked data

Structured dynamics and linked data sets  
Enterprise internal data 'silos' and Linked data  
Traditional knowledge base and Linked data  
Knowledge management applications and Linked data  
Linked data publication  
Anomaly detection via linked data  
Visualization of linked data
