

CALL FOR PAPERS

ICSLDSD 2020
Mar 26-27, 2020
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSLDSD 2020 : International Conference on Semantics for Linked Data and Structured Dynamics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Semantics for Linked Data and Structured Dynamics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Deploying linked data
Linked data query builders
Practical semantic web via linked data
Evolving the web into a global data space via linked data
Quantifying the connectivity of a semantic Linked data
Query languages for linked data
Access control and security for linked data
Semantics for linked data

Structured dynamics and linked data sets
Enterprise internal data 'silos' and Linked data
Traditional knowledge base and Linked data
Knowledge management applications and Linked data
Linked data publication
Anomaly detection via linked data
Visualization of linked data
