

CALL FOR PAPERS

ICSTABON 2020
Mar 26-27, 2020
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSTABON 2020 : International Conference on Sustainable Technologies or Agriculture, Biocatalysis, Organocatalysis and Nanobiotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Technologies or Agriculture, Biocatalysis, Organocatalysis and Nanobiotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural Biotechnology	Cellular and molecular biology
Agricultural biotechnology and developing countries	Composition of foods
Agricultural Biotechnology regulations, rules and perceptions	Control and system engineering for food industry
Animal biotechnology	Crop breeding, genetics and genomics
Application of artificial intelligence in food engineering research and in industry	Diet-related diseases
Beverage and Fermentation Technology	Domestic animal breeding, genomics and biotechnology
Biocatalysis, organocatalysis and nanobiotechnology	Drug screening and pharmaceutical synthesis
Biomedical Computational drug discovery	Electronics and instrumentation in food industry
Bio-MEMS and microbioreactors	Environmental Biotechnology
Biomimetic and self-assembled materials	Enzyme Engineering
Biosensors and molecular diagnostics	Food and dairy agricultural biotechnology
Breeding and genetics	Food and Nutritional Science
Cell and tissue engineering	Food bioavailability
