

CALL FOR PAPERS

ICWN 2020
Mar 26-27, 2020
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWN 2020 : International Conference on Wireless Networking is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wireless Networking. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wireless information networks	Performance-predictions
Wireless networking	methodologies
Sensor and mobile ad-hoc networks	Radio propagation studies
Wireless personal area networks	Modulation and coding
Wireless LANs	Multiple access methods
Mobile data networks	Security and privacy
Location aware networks and services	considerations
Wireless health and body area networking	Antenna and RF subsystems
Cyber physical systems	VLSI and ASIC design
Opportunistic localization for wireless devices and indoor geolocation	Experimental trials
RF localization and RFID techniques	Traffic and frequency management
	Network signaling and architecture
