**Mar 12-13, 2020**  
**Miami, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICADPM 2020 : International Conference on Autonomic Drugs and Pharmacologic Modification is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Autonomic Drugs and Pharmacologic Modification. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Autonomic drugs/autonomic nervous system drugs  
Autonomic pharmacology  
Autonomic receptors  
Functional organization of autonomic activity  
Central integration  
Integration of cardiovascular function  
Postsynaptic regulation  
Pharmacologic modification of autonomic function  
Clinical pharmacology of autonomic drugs  
Cholinoceptor-activating drugs

Cholinesterase-inhibiting drugs  
Cholinoceptor-blocking drugs  
Adrenoceptor agonists drugs  
Sympathomimetic drugs  
Adrenoceptor antagonist drugs  
Nonadrenergic and noncholinergic neurons  
Effect of autonomic drugs on the responses  
Electric and motor effects of autonomic drugs  
The action of autonomic drugs on normal persons and neuropsychiatric patients
