

CALL FOR PAPERS

ICBDT 2020
Mar 12-13, 2020
Miami, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBDT 2020 : International Conference on Biomedical Device and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomedical Device and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomedical Device engineering
Medical imaging devices
Artificial organs
Prosthetic, physiotherapy and
radiotherapy devices
Biomedical device design and
standards
Endoscopy and colonoscopy
Pediatric intensive care

Photo detectors
Implants and therapeutic
engineering
BioMedical signal/image analysis
Device integration and
interoperability
Biomedical microdevices
Biomedical chromatography
