

# CALL FOR PAPERS

**ICCCAC 2020**  
**Mar 12-13, 2020**  
**Miami, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCAC 2020 : International Conference on Cognitive Control and Automatic Control is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cognitive Control and Automatic Control. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Cognitive control
- Cognitive control mechanisms
- Goal-directed behavior
- Executive control
- Goal-driven decision-making
- Cognitive control in task-switching
- Response selection
- Response inhibition
- Cognitive control for uncertainty reduction
- Conflict monitoring and cognitive control
- The role of the dorsolateral prefrontal and anterior cingulate cortex in cognitive control
- The role of the medial frontal cortex in cognitive control
- The prefrontal cortex and cognitive control
- Cognitive control of emotion
- Attention and cognitive control
- Neurocognitive mechanisms of cognitive control
- The neural basis of inhibition in cognitive control
- Consciousness and cognitive control
- Working memory, cognitive control, and the prefrontal cortex
- Stroop test and stroop interference
- Proportion-congruent effect
- Item-specific proportion congruent
- Color-naming responses
- Process dissociation
- Automatic control of automatic processes
