

# CALL FOR PAPERS

**ICEEREM 2020**  
**Mar 12-13, 2020**  
**Miami, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEREM 2020 : International Conference on Energy Efficiency and Renewable Energy Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Efficiency and Renewable Energy Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Power engineering  
Energy engineering  
Energy efficiency  
Renewable energy  
Sustainable energy  
Sustainable energy policy  
Sustainable energy hierarchy  
Domestic energy resources  
Domestic energy consumption  
Appliances  
Building design  
Energy efficiency by country  
Industry

Transportation  
Automobiles  
Street lighting  
Aircraft  
Alternative fuels  
Energy conservation  
Rebound effect  
Organisations  
Goal to reduce the amount of energy  
Fluorescent lights, led lights or natural skylights  
efficient technology or production process  
Problem of reducing greenhouse gas emissions
