

# CALL FOR PAPERS

**ICIB 2020**  
**Mar 12-13, 2020**  
**Miami, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIB 2020 : International Conference on Invertebrate Biology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Invertebrate Biology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Invertebrate biology  
Invertebrate pathology  
Invertebrate reproduction and development  
Anatomy, development, and systematic relationships  
Animal diversity and evolution  
Macroevolutionary trends  
Phylogenetic trees  
Gene regulatory network

Classification and taxonomy  
Animal architecture and body plans  
Acquisition  
Respiration  
Excretion  
Growth  
Integration
