

CALL FOR PAPERS

ICMAM 2020
Mar 12-13, 2020
Miami, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMAM 2020 : International Conference on Modern Agricultural Meteorology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Modern Agricultural Meteorology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural engineering
Agricultural science
Agricultural meteorology
Agrometeorology
Agricultural ecology
Crop production
Agrometeorological applications in atmosphere
New methods
Sustainability and enhancement strategies

Weather and climate information to enhance agricultural crops
Interaction of meteorological and hydrological factors
Soil, plant, atmosphere and agricultural management options
Climatology and atmospheric science
Agricultural infrastructure
Plant protection and fertilization
Plants, seeds and propagation materials
Design of agricultural machinery, equipment, and agricultural structures
