

# CALL FOR PAPERS

**ICMPTIP 2020**  
**Mar 12-13, 2020**  
**Miami, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMPTIP 2020 : International Conference on Mass Production, Technology and Industrial Processes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mass Production, Technology and Industrial Processes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial engineering  
Mass production  
Flow production  
Industrial production methods  
Mass production and processing  
Industrial applications  
Industrial processes  
Standardized products  
History  
Pre-industrial  
Industrial  
Factory electrification  
Use of assembly lines

Vertical integration  
Advantages and disadvantages  
Socioeconomic impacts  
Techniques of mass production  
Precursors  
Industrial design  
Process of design  
Planning  
Construction  
Industrial efficiency  
Industrial technology  
Birth of industrial design
