

CALL FOR PAPERS

ICMTTBSIP 2020
Mar 12-13, 2020
Miami, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMTTBSIP 2020 : International Conference on Molecular Targets, Targeting in Biomedical Sciences and Imaging Probes is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Molecular Targets, Targeting in Biomedical Sciences and Imaging Probes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Molecular targets and targeting in
biomedical sciences
Biomarkers
Targeted therapy
Molecular targeting
Imaging probes
Molecular imaging

Theranostics
Library-based display technologies
Peptides
Aptamers
Antibodies
