

# CALL FOR PAPERS

**ICSWRIE 2020**  
**Mar 12-13, 2020**  
**Miami, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSWRIE 2020 : International Conference on Solid Waste Recycling and Incineration in Environmental Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Solid Waste Recycling and Incineration in Environmental Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental engineering  
Solid waste management  
Waste handling practices  
Financial models  
Disposal solutions  
Incineration  
Recycling  
Resource recovery practice  
Waste hierarchy  
Wastewater treatment  
Life-cycle of a product  
Resource efficiency  
Polluter pays principle

Adverse effects of waste on health  
the environment and aesthetics  
Waste management and recycling  
activities at manufacturing sites  
and mines  
Systems for waste management,  
reclamation, transfer and disposal  
on land, sea and air  
Environmental impact assessment and  
mitigation  
Water supply and treatment  
Air pollution management  
Environmental protection agency  
Protecting the environment by  
reducing waste and pollution  
Improving environmental conditions  
Technologies and processes that  
control pollution  
Prevent, control and remediate  
environmental hazards  
Waste treatment  
Site remediation
