

CALL FOR PAPERS

ICTSVSE 2020
Mar 12-13, 2020
Miami, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTSVSE 2020 : International Conference on Traffic Sign Visibility and Size Effects is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Traffic Sign Visibility and Size Effects. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Highway sign visibility
Traffic sign visibility standards
Visibility distance of highway signs
Highway sign visibility measurement systems
Factors in highway sign visibility
Reflectorization and illumination
Color and brightness factors
Size effects on visibility
Measures of size effectiveness

Visual perception
Photometry
Traffic sign regulations
Visual acuity
Contrast sensitivity
Sign placement
Message design
Nighttime visibility of traffic signs
