

CALL FOR PAPERS

ICCIMVD 2020
Mar 26-27, 2020
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCIMVD 2020 : International Conference on Clinical Immunology and Molecular Vaccine Developments is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Clinical Immunology and Molecular Vaccine Developments. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Immunological techniques
Immune regulation
Immunological aspects of infection
Immunological aspects of skin diseases
Immunological aspects of allergy and anaphylaxis
Immunology of HIV infections
Immunological aspects of cardiac diseases
Immunological aspects of renal diseases
Immune-mediated neurological syndromes
Immunological aspects of endocrine diseases
Immunogenetics
Molecular oncology and immunology
Innate immune system

Immunopathogenesis
Immunomicrobiology
Immunoglobulins
Immunoglycomics
Immunoproteomics
Immunoprophylaxis
Molecular vaccines
Antibody engineering
Cancer vaccines
Cancer stem cell therapy
Drug therapies
Cancer immunotherapy
T-cell immunology
