

CALL FOR PAPERS

ICCMN 2020
Mar 26-27, 2020
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMN 2020 : International Conference on Computational and Mathematical Neuroscience is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational and Mathematical Neuroscience. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Neural Computing
Neural Networks
Computational Neuroscience
Mathematical Neuroscience
Functional Analysis
Dynamical Systems Theory
Bifurcation Theory

Probability and Statistics
Stochastic Calculus
Geometry
Information Theory
Numerical Analysis
