

# CALL FOR PAPERS

**ICPRD 2020**  
**Mar 26-27, 2020**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPRD 2020 : International Conference on Podiatry and Rotational Deformities is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Podiatry and Rotational Deformities. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Preventive podiatric medicine  
Arthropathies  
Rear foot conditions  
Diagnostic techniques  
Rotational deformities  
Basic and advanced limb reconstruction  
Disorders of skin and nail including dermatology of the lower limb

Biomechanics, gait analysis and foot orthoses  
Foot and ankle deformities  
Monolateral and circular external fixation  
Gait implications for angular and rotational deformities  
Holistic management and patient centered care  
Innovations and new developments in podiatry
