

# CALL FOR PAPERS

**ICRAME 2020**  
**Mar 26-27, 2020**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRAME 2020 : International Conference on Recent Advances in Medical Electronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recent Advances in Medical Electronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Medical electronics  
Flexible/stretchable circuitry in  
medical electronics  
Devices/sensors/security -  
connected health security  
Business and market trends in  
medical electronics  
Medical electronic product design  
Medical diagnostic and imaging  
Wearables in healthcare

IoT solutions for medical  
technologies  
Medical assembly/test  
Miniaturization  
Reliability concerns in medical  
products  
Biological compatibility  
Electronic prosthetics
