

CALL FOR PAPERS

ICAA 2020
Mar 19-20, 2020
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAA 2020 : International Conference on Advances in Autoimmunity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Autoimmunity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mutine autoimmune arthritis
Autoimmune myasthenia gravis
Inflammatory arthritis
Tissue regeneration in
autoimmunity
Advances in autoimmunity
Advanced research in antigen
sampling and processing
Circulatory antigen processing
Viral interferences
Tap independent processing
pathways
Humoral and cellular immune
responses
Antigen processing through
macroautophagy
B-cell and T-cell receptors
Extracellular acidosis

Advances in cellular immunology
Pattern recognition receptors and
cellular encapsulation
Cellular senescence and cancer in
aging
Vaccination-induced cellular
immunity
Cellular automata and agent based
models
Cellular antioxidant activities
Hypersensitivity, asthma and
allergic responses
Mast cell in allergic inflammations
Allergy immunotherapy
Allergic disease models
Advances in allergy research
Food allergy
