

# CALL FOR PAPERS

**ICDMAS 2020**  
**Mar 19-20, 2020**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDMAS 2020 : International Conference on Deformation Monitoring, Analysis and Simulation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Deformation Monitoring, Analysis and Simulation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Deformation monitoring	
Measuring devices for deformation monitoring	
Automatic and manual deformation monitoring	
Deformation monitoring, analysis and simulation	
Geodetic and remote-sensing sensors for deformation monitoring	
Application areas of deformation monitoring	
Dams	
Roads	
Tunnels	
	Bridges and Viaducts
	High-rise and historical buildings
	Foundations
	Construction sites
	Mining
	Landslide areas
	Volcanoes
	Settlement areas
	Earthquake areas
