

CALL FOR PAPERS

ICEDAM 2020
Mar 19-20, 2020
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEDAM 2020 : International Conference on Engineering Design and Applied Mechanics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Engineering Design and Applied Mechanics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Engineering design
Engineering design process
Aesthetics, style and form
Collaborative design
Creativity and innovation
Design costing
Design education and pedagogy
Design for x
Manufacturability, assembly,
environment, sustainability
Design management
Design risk and uncertainty
Design theory and methodology
Designing product platforms,
modularity and reuse

Emotive design
Ergonomics, styling and the design
process
Evolutionary design activity
Global and distributed design
Inclusive design and assistive
technology
Industrial design and total design
Integrated design development
Knowledge and information
management
Maintainability, sustainability,
safety and standards
Product introduction process and
new product design development
Quality, reliability and
robustness
Service design and design services
State-of-the-art reviews
