

CALL FOR PAPERS

ICFMS 2020
Mar 19-20, 2020
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFMS 2020 : International Conference on Forestry Machinery and Simulation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Forestry Machinery and Simulation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Forestry machinery
Forestry machinery equipment
Ergonomic design of large forestry machines
Efficiency and cost analysis of forestry machinery
Green forest machines
Eco-friendly technical solutions
Traces of forest machines in the environment
Component cooling systems
Energy-saving technologies
Engines and vehicles
Hybrid technology
Maintenance and repair of agricultural machines
Management of agribusiness and rural development

Noise and vibration
Novel machine designs
Research and testing
Simulation
Soil protection
Stockbreeding machinery
Support systems
Terrain-vehicle systems
Uses of machines
Utilization of organic and inorganic wastes
Wireless technology
Transport technologies
