

# CALL FOR PAPERS

**ICHPGC 2020**  
**Mar 19-20, 2020**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHPGC 2020 : International Conference on Human Population Growth and Control is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Human Population Growth and Control. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Abortion	Effects of human overpopulation
Abstinence	Ethnic bioweapon
Accelerating change (population growth is a factor)	Eugenics
Anthropocene extinction	Family planning
Behavioral sink, a rat over-population experiment	Fertility and intelligence
Birth control	Global catastrophic risk
Birth credit	Human migration
Birth regulations	Human overpopulation
Changing status of women causing departure from traditional sexual division of labour	Human population control
Contraception	Malthus' Dismal Theorem
Demographic transition	Malthusianism
Demographic trap	One-child and Two-child policies, and other policies restricting or discouraging births directly
Education and empowerment	Overexploitation
