

CALL FOR PAPERS

ICSRSS 2020
Mar 19-20, 2020
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSRSS 2020 : International Conference on Sedimentary Rocks and Sedimentary Structures is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sedimentary Rocks and Sedimentary Structures. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sedimentary rocks

Petrology of sedimentary rocks
Rare earth elements in sedimentary rocks
Density, porosity, and compaction of sedimentary rocks
Evolution of sedimentary rocks
Biochemical and organic sediments and sedimentary rocks
Chemical sediments and sedimentary rocks
Sedimentary structures
Transgressions and regressions
Classification based on origin
Clastic sedimentary rocks
Conglomerates and breccias
Sandstones

Mudrocks

Biochemical sedimentary rocks
Chemical sedimentary rocks
Compositional classification schemes
Deposition and transformation
Sediment transport and deposition
Transformation (diagenesis)
Color and texture
Mineralogy
Fossils
Primary sedimentary structures
Secondary sedimentary structures
Sedimentary environments
