

CALL FOR PAPERS

ICSS 2020
Mar 19-20, 2020
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSS 2020 : International Conference on Spatial Sciences is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Spatial Sciences. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Spatial sciences
Applications of spatial sciences
Land surveying and Land use planning
Sustainable urban development and spatial sciences
Smarter farming and precision agriculture
Intelligent transport and driverless technology
Disruptive changes in the delivery of land registries
Innovation and start-ups in spatial technology
Geospatial technology
Geographical information systems
Positioning and navigation
Remote sensing and image
Land information management

Monitoring and studying of the earth system
Land administration information systems
Databases and environmental models
Technologies and methodologies of earth observation systems
Observations of the land surface, solid earth, oceans,
Atmosphere, cryosphere and biosphere
Global change, including hazard, disaster and sea-level and
Environmental monitoring
Geodesy and geodynamics
Geodynamics
Cartography
Spatial analysis
Geodesy
