

CALL FOR PAPERS

ICAVS 2020
Mar 02-03, 2020
Rio de Janeiro, Brazil

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAVS 2020 : International Conference on Animal and Veterinary Sciences is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Animal and Veterinary Sciences. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Animal and Veterinary Sciences
Disease surveillance, biosecurity and emergency preparedness
Emerging diseases, e.g. avian influenza, west Nile virus, BSE, etc.
Surveillance standards and procedures required to protect international trade
Establishment of adequate and achievable biosecurity systems
Emergency preparedness considerations for natural disaster(s) and foreign animal disease(s)
Production animal welfare and animal care
Animal transportation
Humane slaughter
Mass destruction of animals for disease control

Establishment of codes of practice for responsible animal care
Topics related to the humane handling of livestock throughout the food chain
Humane handling of livestock in animal production systems
Self regulation of farm animal welfare by industry
Judicious use of animal health products
International harmonization of new drug approval processes
Antimicrobial resistance
Antimicrobial use issues in companion animals
Emerging therapeutic products
Risks or benefits to agricultural practices that may result from restrictions being placed on antimicrobial use
