

CALL FOR PAPERS

ICCIS 2020
Mar 02-03, 2020
Rio de Janeiro, Brazil

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCIS 2020 : International Conference on Cryptography and Information Security is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cryptography and Information Security. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cryptographic protocols
Cryptography and Coding
Untraceability
Privacy and authentication
Key management
Authentication
Trust Management
Quantum cryptography
Computational Intelligence in
Security
Artificial Immune Systems
Biological & Evolutionary
Computation
Intelligent Agents and Systems
Reinforcement & Unsupervised
Learning

Autonomy-Oriented Computing
Coevolutionary Algorithms
Fuzzy Systems
Biometric Security
Trust models and metrics
Regulation and Trust
Mechanisms
Data Integrity
Models for Authentication,
Trust and Authorization
Wireless Network Security
Information Hiding
E- Commerce
Data & System Integrity
Access Control and Intrusion
Detection
