

CALL FOR PAPERS

ICME 2020
Mar 02-03, 2020
Rio de Janeiro, Brazil

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICME 2020 : International Conference on Mining Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mining Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mining Engineering	Plant Design and Control
Mine Mechanization	Politic, Historic, Cultural and
Mine Ventilation	Social Aspects of Mining Sector
Mineral-Material Characterization and Process Mineralogy	Precious Metals
Mining and Energy	Recycling
Mining and Environment	Risk Assessment and Management in Mining
Mining and Water	Rock Mechanics and Geotechnical Applications
Mining Economics, Valuation and Finance	Shale Gas
Mining Policies and Mine Legislation	Small Scale Mining
Modelling, Simulation and Optimization	Solution Mining
Occupational Health and Safety	Surface Chemistry and Flotation
Physical Enrichment	Sustainable Mining
	Undersea Mining
