

CALL FOR PAPERS

ICPCR 2020
Mar 02-03, 2020
Rio de Janeiro, Brazil

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPCR 2020 : International Conference on Production, Control and Regulation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Production, Control and Regulation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Production control
Production planning and management
Types of production control
Production control and supply chain management
Management of real-time operations
Managerial functions: planning, organizing, staffing, and directing
Applications and methods of production planning
Operations research and production planning

Production control optimization
Quality control and quality assurance
Operational control
Maintenance strategies
Self-optimizing systems
Manufacturing process
Complex systems
Systems engineering
