

CALL FOR PAPERS

ICUMT 2020
Mar 02-03, 2020
Rio de Janeiro, Brazil

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUMT 2020 : International Conference on Urban Mapping Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Urban Mapping Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Urban mapping
- The importance of urban mapping
- Urban mapping methods
- Urban mapping databases
- Urban mapping tools
- Urban mapping and planning
- Spatial approaches for urban mapping
- Accuracy and image classification

- Urban roads mapping
- Fractal and spatial autocorrelation techniques for urban mapping
- Global urban mapping
- Spectral resolution requirements
- Innovative technologies in urban mapping
- 3D urban mapping
- Urban mapping in GIS
- Earth observation for mapping and monitoring urban green structure
