

CALL FOR PAPERS

ICAEEMB 2020
Mar 05-06, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEEMB 2020 : International Conference on Applications of Enzyme Engineering and Molecular Biology is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applications of Enzyme Engineering and Molecular Biology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biocatalysis
Commodity and industrial chemicals
Emerging technologies in protein engineering
Pathway engineering
De novo design
Intersection of protein engineering and next-generation sequencing
Structural biology and enzyme engineering

Biomanufacturing
Metabolic engineering and synthetic biology
Protein aggregation and stability
Cell culture engineering
Molecular engineering and design
Enzyme engineering and vaccine manufacturing
Bioconjugates and glycoengineered antibodies
