

# CALL FOR PAPERS

**ICAPMT 2020**  
**Mar 05-06, 2020**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPMT 2020 : International Conference on Agricultural Pest Management Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Pest Management Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural pest management  
Agricultural entomology  
Pest management decision models  
Development of sensors for variable rate application of pesticides  
Pest management strategies in traditional agriculture  
Crop protection  
New pests and initiative  
Integrated pest management  
Insecticide evaluations  
Nonchemical control measures  
Insect development, anatomy, physiology, life history, behavior, etc.  
Insect classification and agricultural pests  
Pest management theory and practice

Insect pests and control  
Natural enemies  
Plant and insects  
Pollinators  
Pesticide regulations/insecticides  
Ecological management  
Agricultural and forest entomology  
Apidology, sericulture and social insects  
Arthropod vectors of animal and plant disease  
Biodiversity, biogeography and conservation of arthropods  
Insect-plant interactions in a changing climate  
Insects in food safety and homeland security  
Integrated pest management and sustainable agriculture
