

CALL FOR PAPERS

ICAST 2020
Mar 05-06, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAST 2020 : International Conference on Archaeological Science and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Archaeological Science and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Archaeological science
Archaeo-chronometry
Archaeological feedback
Archaeology of the Stone Age
Bioarchaeology
Ceramics, glazes, glass and vitreous materials
Field archaeology
GIS and prospection
Human - environment interactions
Integrated prospection approaches

Integrated site studies
Interpretation and presentation
Metals and metallurgical ceramics
Micro/nano diagnostic and ancient technology
Prehistoric and protohistoric archaeology
Processing and visualization
Remote sensing in archaeology
Science and technology for archaeology and cultural heritage
