

CALL FOR PAPERS

ICBDSE 2020
Mar 05-06, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBDSE 2020 : International Conference on Biomedical Data Science and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomedical Data Science and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

New data, software, models,
workflows, containers, or virtual
machines that have been
successfully used (or reused) in
data science and analytics
Methods for maintaining methods,
data, software, systems and
metadata, including versioning,
indexing, quality assurance,
distribution, implementation
support, and governance
Outcomes of large initiatives that
promote big data research in
biomedical sciences and healthcare

Demonstrations of interoperability
across settings, organizations,
regions, or nations in support of
data science
Data and software market models
emphasizing sustainability
