

# CALL FOR PAPERS

**ICCAMS 2020**  
**Mar 05-06, 2020**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCAMS 2020 : International Conference on Control Algorithms, Methods and Strategies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Control Algorithms, Methods and Strategies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Control algorithms  
Digital control algorithms  
Complex control algorithms  
Adaptive systems and control  
Control systems  
Termination detection and approximation  
Leader election

Echo algorithm  
Consistent snapshot  
The proportional integral derivative (PID) controller  
Programming and deployment options  
Advanced control design techniques  
High performance embedded control  
LabVIEW software and the PID controller
