

CALL FOR PAPERS

ICDLUI 2020
Mar 05-06, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDLUI 2020 : International Conference on Deep Learning in Ultrasound Imaging is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Deep Learning in Ultrasound Imaging. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Classification of lesions/tissue in ultrasound

Computer-aided detection in ultrasound

Disease classification in ultrasound

Image registration or fusion with ultrasound

Segmentation in ultrasound

Denoising or super-resolution in ultrasound

Imaging algorithm

Quality control in ultrasound

Ultrasound-guided interventions
