

# CALL FOR PAPERS

**ICEEB 2020**  
**Mar 05-06, 2020**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEB 2020 : International Conference on Environmental and Energy Biotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental and Energy Biotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Applied Ecology and Environmental Research  
Atmospheric physics and chemistry  
Bio-machine systems  
Biochemical Engineering  
Biofuels  
Biological natural resource engineering  
Biomaterials  
Bioprocess and Biosystems  
Biotechnology  
Biotechnology applied to production of new and better quality food  
Biotechnology for Livestock, Pests and Aquaculture  
Carbon capture and storage  
Chemical, Environmental, and Process Engineering

Clean energy systems and technology  
Climate and climatic changes  
Cutting Edge Science for Future  
Animal Agriculture  
Delivery of the final product  
Ecological Engineering  
Emerging public concerns with animal agriculture  
Emerging technologies in Agriculture and Livestock  
Energy in agriculture  
Environmental constraints to animal agriculture  
Environmental dynamics  
Environmental engineering and management  
Environmental engineering and sustainable development  
Environmental Science and Technology
