

CALL FOR PAPERS

ICEMDSEAMPC 2020
Mar 05-06, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMDSEAMPC 2020 : International Conference on Electric Machines and Drive Systems for Emerging Applications and Model Predictive Control is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electric Machines and Drive Systems for Emerging Applications and Model Predictive Control. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Transport electrification
PM synchronous machine
Magnet-free machines
Bearing-less machines
High-speed machines

Direct-drive machines
Sensorless control
Model predictive control
Direct torque control
Electric machines and drives in
energy storage
