

CALL FOR PAPERS

ICGMP 2020
Mar 05-06, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGMP 2020 : International Conference on General Mathematical Physics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of General Mathematical Physics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Physical science
Physics
Mathematical physics
Development of mathematical methods
Numerical methods
Analytic methods
Mathematical methods for application to problems in physics
Formulation of physical theories
Applied mathematics
Classical mechanics
Partial differential equations
Quantum theory
Relativity and quantum relativistic theories

Statistical mechanics
Prominent mathematical physicists
Before Newton
Newtonian and post Newtonian
Relativistic
Quantum
Theoretical physics
Experimental physics
Scientific method
Relationship between mathematics and physics
Theory and experiment
Scope and aims
Research fields
