

# CALL FOR PAPERS

**ICMCS 2020**  
**Mar 05-06, 2020**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMCS 2020 : International Conference on Mountaineering and Climbing Science is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mountaineering and Climbing Science. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mountaineering and Climbing  
Physiology of Climbing  
Economy in Difficult Rock Climbing  
Sport Climbing Related Injuries and Overuse Syndromes  
High Altitude Medicine and Cold Effects in Mountaineering  
Hypoxic Training  
Postural Regulation and Motion  
Simulation in Rock Climbing  
Grip Capabilities of Climbers' Hands and Fingers  
Biomechanics of Ice Tool Swinging Movement

Motor Control and Learning  
Visual-Motor Skill in Climbing  
Climbing Grades - Systems and Subjectivity  
Psychological Processes in the Sport of Climbing  
Exposure and Engagement in Mountaineering  
Equipment, Technology and Safety Devices in Climbing  
The Engineering of Climbing Equipment  
Simul-Climbing Progression and Falls Analysis
